### LABOR LEADERS WITH PRESIDENT.

Boiler Makers and Shipbuilders Indorse Moyer-Haywood Attitude.

Washington, April 30.—President Roosevelt yesterday received further assurances from important organized labor sources regarding his Haywood-Moyer letter. President George F. Dunn of the International Boilermakers' association and the International Iron Shipbuilders' union called at the White House, accompanied by John Galvin, J. A. Franklin, and Edward Grant, vice-presidents, and Thomas Nolan, international organizer. They saw the President in behalf of the boilermakers in the canal zone, who were promised higher wages some time ago, but have not received the increase. Other matters of interest to their organizations were discussed. Incidental to these visitors told the President they had no fault to find with his stand regarding Haywood and Moyer. They profess to be anxious that the two men be tried, and, if guilty, punished.

### ROOT NOT GOING.

Report of His Intended Resignation Called Absurd.

Washington, April 30.—The report that Secretary of State Root was in disfavor with the president and on the point of retiring from the cabinet was characterized at the White House yesterday as "ridiculous, absurd and preposterous." It was said in another quarter that while Mr. Root was somewhat dissatisfied, he had no desire to resign and would remain in the cabinet until the end of President Roosevelt's term. The president and Secretary Root are said to be on the best of terms.

## DENNETT'S TIP TO BOSTON MAN

"The Jig is Up" He is Reported to Have Said

### CLOSE TO THIRD ARREST

According to Information Received at the Office of the District Attorney He Replied "Cover Me" When Dennett Notified Him.

New York, April 30.—The arrest of the "Big Finger" in the robbery of the Trust company of America, involving the theft of bonds worth more than half a million dollars, is likely to occur at any moment. This "man higher up" is under the surveillance of Pinkerton men who are employed by the American Bankers' association, and has been since Monday of last week. His every move is being watched.

That the leader—the real brains—of the plot to rob the trust company is a prominent Boston man, is believed by Dist. Atty. Jerome. Many days before either W. O. Douglas or O. M. Dennett, who are in the Toms on the charge of having committed the robbery, ever made any statement the officers had information that they claim connected Dennett and this man from Boston.

They say an important telephone conversation was held between Dennett and the Boston man almost immediately after the arrest of Douglas was known. This conversation, it is said, was heard by an astute telephone operator, who communicated at once with the officials. "The jig is up; I'm going to duck," was the first statement by the man on the New York end of the wire, according to the telephone operator.

"Don't do it until you have me covered," came the remonstrance from Boston.

### WIDOW LEFT \$50,000,000.

Nursed and Comforted by Duke and Duchess of Manchester—Bride Arrives Ill.

San Francisco, April 30.—Mrs. James Henry Smith, widow of "Silent" Smith, will receive \$50,000,000 from his estate, according to a will made upon her wedding day and which is believed by her to be his last testament.

Mrs. Smith, who arrived here on the steamship Siberia from Japan, where Smith died, is almost a physical wreck, and on the voyage was attended night and day by her maids and the Duchess of Manchester. The Duke of Manchester acted as the spokesman of the party yesterday, and said he wished to make it plain that Smith died of pneumonia. It was given out that the wedding day will be the only one of which Mrs. Smith has any knowledge. It is said that it differs in many respects from the will said to be in the possession of Lady Cooper, in which Mrs. Smith is said to be left only \$5,000,000.

All members of the party, however, assert positively that there will be no discussion of the estate until after the funeral in New York, and that Mrs. Smith will confer with Lady Cooper before any decision as to a contest will be reached. The party was met here by Eugene Zimmerman of Cincinnati, father of the Duchess of Manchester, and he left for the east last night in Mr. Zimmerman's private car. The body of Mr. Smith will be conveyed in a special car attached to the same train.

### BENNINGTON LICENSES.

Only One Change From Last Year—No Protests Received.

Bennington, April 30.—The license commissioners have granted the first and second class licenses for the present year. The town is entitled to eight licenses and there were nine applications. The application of George A. Miller for a first class license was refused. E. J. Morrisey was granted a second class license for the location where J. H. Whitney has conducted a liquor store during the past two years. The other seven applicants were holders of licenses and there will be no changes in locations, or proprietors. There were no protests against the granting of any licenses and the hearing was attended by only a few.

### SNOW, SLEET AND RAIN PREVAIL IN SOUTHWEST

Freezing Weather Reported From Nebraska to Texas.

Kansas City, April 30.—A combination of snow, sleet and rain was reported yesterday morning in this part of the southwest, with freezing weather prevailing from the Nebraska line to Texas.

There was a fall of snow at Concordia, Kan., following rain; sleet at Baker, Kan., and a heavy rain at Wichita, with a flurry of snow in northwestern Missouri. The temperature at Dodge City, Kan., was 30, and in the Panhandle district 34.

There was a heavy fall of rain Sunday night in western Missouri and also generally throughout Kansas and Oklahoma.

### Millionaire Will Marry a Waitress.

Los Angeles, Cal., April 30.—Two months ago, while spending a few days fishing at Catalina island, A. H. Boris, a millionaire stock broker of Pittsburgh, met Miss Jennie Donahue, a pretty young waitress at Hotel Metropole. During the coming week the millionaire and the waitress are to be married. They are only waiting for the bride-elect's gown to be finished.

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

### ACID IN THE BLOOD.

A well known authority on rheumatism gives the following valuable yet simple and harmless prescription, which anyone can easily prepare at home: Fluid extract dandelion, one-half ounce; compound sarsaparilla, three ounces.

Mix by shaking well in a bottle and take a teaspoonful after each meal and at bedtime.

He states that the ingredients can be obtained from any good prescription pharmacy at small cost.

This mixture is said to relieve almost any case of rheumatism, which is nothing more or less than sour blood—too much acid in the system, which in damp, cool weather forms into minute crystals about the joints and muscles, causing the awful pain and misery of rheumatism.

The above mixture is said to force the kidneys to purify and sweeten the blood, causing the rheumatic pain and swelling to diminish with each dose, until permanent results are obtained, and without injuring the stomach.

It is worth while giving this a trial, anyhow.

### PROSECUTING LONDON GRAFT.

West Ham Officers in Criminal Court Yesterday.

London, April 30.—The first trial here in a long time of municipal officers for receiving bribes began yesterday, when six members of the West Ham (an eastern suburb of London) board of guardians and four workhouse and infirmary officials appeared in the dock of the criminal court charged with accepting money for awarding contracts, for coal and other supplies, and for appointing minor officials. The sums involved are comparatively small. It is charged, for instance, that a doctor paid \$500 for a hospital appointment. Attorney General Walton and three assistants are prosecuting the officials, who are defended by a large array of counsel.

### TEN LIVES LOST IN COLLAPSE OF PIER.

Latest Estimate on Saturday's Accident at Locust Point.

Baltimore, April 30.—The loss of life by the collapse of the new steamship pier at Locust Point last Saturday was placed yesterday at ten; an addition of two Hungarian laborers having been made to the list of missing.

Only three bodies have been recovered so far, but there is scarcely a doubt that the missing men are buried in the ruins.

### THE CENTRAL SENIOR VICE-PRESIDENT SEES ROOSEVELT.

W. C. Brown "Talks a Little" About the Railroad Situation.

Washington, April 30.—President Roosevelt had an extended conference yesterday with W. C. Brown, senior vice-president of the New York Central railroad.

Mr. Brown was averse to saying anything, but admitted that he had "talked a little" about the railroad situation.

### Awoke to See \$1,600 Going Out Window.

New York, April 30.—A burglar entered the bedroom of Mrs. John Frazer in Wakefield early yesterday and took a pocketbook containing \$1,600 from under her pillow. Mrs. Frazer awoke just in time to see the man climbing out of a window. The money was to have been placed in a bank yesterday.

### Hooks Three Dead Babies on Fishline.

Elgin, Ill., April 30.—While fishing in Fox river, yesterday, Stephen Boras hooked a bundle of clothing, which when pulled ashore was found to contain the bodies of three infants, twin boys and a girl.

Coroner Norton is of the opinion that the bodies may have been hurled from a passing train. The clothing found with them was of fine quality, but had no marks.

## UNION MEN FOR ROOSEVELT

Unexpected Turn of Labor Sentiment

### CHANGING FOR PRESIDENT

Moyer-Haywood Talk Declared Political—Defense Move Considered Plan to Help Socialists.

New York, April 30.—Supporters of President Roosevelt dropped up at Sunday's meeting of the Central Federated union when the report was received from the committee appointed a week ago to ask the President to retract his statement that Moyer-Haywood are undesirable citizens. The decision of the committee to call off the Washington visit came in for a good deal of censure. Incidentally the Socialists were hauled over the coals. The Moyer-Haywood question was brought up on a report by Albert Abrahamson, a Socialist, on behalf of the Moyer-Haywood conference as to the arrangements for the parade and mass meeting in Grand Central Palace on May 4. Abrahamson said that the committee needed more money, as the prosecution would have to spend large sums for witnesses. He declared that Senator Borah would be willing to give his services gratis in prosecuting the prisoners in order to break up the unions.

The union instead of unanimously condemning President Roosevelt for his action in the Moyer-Haywood matter, stood about evenly divided on the question. Denver Unions Regretful.

Denver, Col., April 30.—The Denver Trades and Labor assembly has adopted resolutions regretting the attitude taken by President Roosevelt against Moyer and Haywood, the western Miners' Federation officers, now awaiting trial at Boise, Idaho, on the charge of complicity in the assassination of Governor Steiensen.

### VALUABLE MORGAN HORSE SOLD.

United States Purchases Stallion "General Gates" of Joseph Battell.

Midbury, April 30.—The valuable stallion "General Gates" considered one of the best Morgan horses in New England, has been sold by Col. Joseph Battell to the United States agricultural farm in Weybridge. Mr. Battell owned this horse only a few years and secured him in California.

### Show Pope's Robes Over 600 Years Old.

Portugal, Italy, April 30.—King Victor Emmanuel, who was accompanied by Foreign Minister Tittini and Education Minister Rava, yesterday inaugurated in the municipal palace a beautiful edifice built in 1271, an exposition of ancient Umbrian art, comprising 1,000 pictures and thousands of other objects. One exhibit was the pontifical robes of Pope Benedict XI (1303-04), which were found buried with him here.

### John Mitchell Operated on.

Spring Valley, Ill., April 30.—John Mitchell, national president of the United Mine Workers, was operated upon yesterday for strangulated hernia. The operation was performed at St. Margaret's hospital here. The patient is now resting easily and no danger is anticipated.

### Table Linen.

The best laundresses give their table linen little if any starch, but iron it while it is quite damp, which makes it just stiff enough. Hot water should never be used in laundering fine table linen or embroidered doilies. Cold water and pure white soap containing borax will preserve their whiteness and beauty.

### Babel, now called Birs Nimrod, built at Babylon by Belus, was used as an observatory and as a temple of the sun. It was composed of eight square towers, one over the other, in all 670 feet high, and the same dimensions on each side of the ground.

### The Red Cross.

The red cross was chosen as the badge of the humane society out of compliment to Switzerland, the design, with the colors reversed, being the Swiss national flag. At the Geneva convention in 1864 the nations decided upon a common flag and badge for hospitals, surgeons, etc. The red cross was then chosen.

### Trees.

Trees which grow on the northern side of a hill are said to be much more durable when converted into furniture than those which grow on the southern side.

### Sir Isaac Newton's Epitaph.

## BRONCHIAL COUGHS

Breathe Hyomei's Healing Air and All Irritation Will Be Quickly Cured.

The most irritating and annoying form of cough is that termed bronchial. People subject to bronchial troubles whenever there is a change in the weather or they are exposed to a draft will "catch" a bronchial cough, which is very disagreeable, irritating and annoying.

Bronchial troubles cannot be cured by stomach dosing. The medicated air of Hy-o-mei is the only treatment that reaches the affected parts and gives relief and cure. It destroys all the disease germs that are present in the nose, throat and lungs, soothes and relieves the irritated mucous membrane in all parts of the bronchial tubes and quickly overcomes the irritation.

Bronchitis is really an inflammation of the mucous membrane lining the air passages and is purely a local disease, so that it needs a local treatment like that afforded by Hy-o-mei.

If there is any doubt in your mind as to the power of Hy-o-mei to cure bronchial troubles, so that the system will resist coughs and colds, the unusual way in which it is sold by Rickert & Wells should dispel that doubt. They agree to refund the money to any purchaser of Hy-o-mei who is not perfectly satisfied with the results following the use of the remedy. They take all the risk and if the remedy does not help you it does not cost a penny, while if it cures, the expense is nominal, for a complete Hy-o-mei outfit is sold at only \$1.00.

### FORECAST OF FASHION.

All Kinds of Coats For One's Selection This Season—Elastic Belts.

There is much variety in the shape and style of coats for spring, and it is almost impossible to state which will be most popular. Tight fitting coats buttoned simply down the front, some rather long and others short, will be worn with severe tailored costumes. Elastic belts are in great demand. The narrow ones come in all colors.

A PRETTY LITTLE FROCK—50c.

plain and plaided. They are styled and embellished with various designs. The soft elastic belts, which crush into the buckle, come only in black and white and are four or five inches wide. Some of the long gloves have a buttonhole or loop at the top to fasten them to the sleeves, thus eliminating a common annoyance.

There is no abatement of the use of braid on spring suits. It is found on skirts as well as on coats and jackets. Ribbons are used in all sorts of ways on hats. Sometimes they form spikes, sharp, which are often twisted. Then there are stiff loops standing up from the hat or soft loops flattened against the brim at or drooping dejectedly from the rear.

Many of the new hats are quite flat and are trimmed with flatly arranged wings. Many have flat loops of velvet filling in under the brim at the back. When the hat is light, the wings of medium shades and the velvet loops much darker the effect is very good.

A warm weather frock for the wee girl is shown in the picture. It is of blue and white checked gingham trimmed with white embroidery and has a white collar. This design makes up beautifully in all the thin materials.

### JUDIC CHOLLET.

To Limit Power of Inferior Courts.

At a conference between the executive council of the American Federation of Labor and representatives of the several railway brotherhoods in Washington it was decided that a bill should be introduced in the next congress and pressed for passage depriving federal courts inferior to the United States supreme court of the power to declare unconstitutional any act passed by congress. A general understanding was also reached to the effect that the A. F. of L. and the organizations of railway employees will continue to co-operate on matters of legislation.

### Barenders Not to Meet.

There will be no international convention of the Barenders' International union this year. The recent referendum vote was decisively against holding a convention, but the 1908 gathering, if one is held, will be at Toledo, O., which place was selected for this year's meeting.

### A Labor Directory.

The Iowa State Federation of Labor has just entered upon a most interesting and gigantic work, that of compiling a directory giving the name, occupation and residence of every laboring man in the state. The plan will be watched with interest by workmen throughout the United States.

### Labels on Bottles.

To remove paper labels from old bottles easily wet the face of the label with water and hold it for an instant over any convenient flame. The steam formed penetrates the label at once and softens the paste.

## BUNCH BIFFS AND WON OUT

Boston Pilgrims Defeated New York Highlanders

### IN A TWO TO NOTHING GAME

Young Pitched Splendid Ball and Kept the Six Hits Off Him Well Scattered—Boston Nationals Lost Yesterday.

Boston, April 30.—Fine pitching by the veteran Cy Young with hard slugging by the team back of him enabled Boston to win the first game over the New York Highlanders yesterday afternoon by the score of 2 to 1. Young allowed but six hits. Doyle started to twirl for the visitors, but was driven to the stable in the second inning. Keefe being substituted, Keefe was also hit freely but no scores resulted.

All the scoring of the game was done in the second inning. New York started off, Chase scratched a single through the box and then Laporte placed a Texas leaguer over Wagner's head, Chase going around to third. Conroy was out to Ferris, but Williams hit over Young's head. Ferris did well to stop the ball but threw it low to Lingglaub, who juggled, allowing Williams to reach first and Chase to score. Laporte having gone to second was caught off the bag by Young. Klineow was the third out on a foul to Criger.

Not to be outdone, Boston also began to bat in the same inning. Collins opened with a single. Grimshaw who was playing right field followed with another single, on which Collins went to third. Grimshaw promptly took second when the return of his hit got by Laporte. Ferris laced out the third single to centerfield, and both Collins and Grimshaw scored. Keefe then came into the box and the scoring stopped.

## TERRIBLE ITCHING AND SCRATCHING

On Hands, Feet and Face—Caused by Poison Oak and Ivy—Was Unable to Rest Night or Day—Developed into Eczema, which Affected Whole of System—Suffered 4 Years Without Relief.

### CURED BY THE CUTICURA REMEDIES

"A healthy person does not heed statements made by such people, but if such persons suffer from poisonous weeds, a remedy is anxiously desired. I suffered severely for four years from poison oak and ivy. My condition was serious, as I could not rest night or day and be free from a terrible itching sensation from scratching on my hands between the fingers, my feet and face. I got the best of advice and treatment from six different doctors who were anxious to cure me. One of the doctors told me that when the poison was cured, eczema (a worse disease) would follow, which became true. My eyesight was affected, and I went to a hospital especially for the eyes and got relief, but eczema got a terrible hold on my system. I was about to give up all hope of ever being cured, yet I could not be reconciled to such results, as my health had been good and free from any disease all my life. My age is seventy-three years. In my extremity I happened to read of Cuticura Remedies for skin diseases, and wrote you to please send me a supply of the Cuticura Remedies. I was anxious about my condition and desired to evade any spurious imitation. This was in July, 1905, and I was instructed to call on a certain druggist for the Cuticura Remedies. I bought five boxes Cuticura Ointment; also some Cuticura Soap and Cuticura Pills as I required them. In four weeks' treatment my face was smooth, and the itching gradually left my hands and feet and I could rest comfortably, for which I am grateful and happy. W. Field Cowen, Justice of the Peace and Notary Public, Hartley, Del. May 15, 1906."
